The Orwest Fain.—A few days since, when in Orwell, we visited the Fair Grounds which are admirably situated about a short mile east of the village. They have been st great pairs in fitting up this ground, though this year it will labor under the drawbacks of recent clearing and grading.

Next year the ground will have settled and grass grown, so as to make it one of the best, if not the best Fair site on the Dest, if not Reserve. Their Horse and Carriage Track is large and well arranged; and they were fortunate to get it graded before the recent rains, so that it will have a month to settle and become firm. Firs.-The Planing Mill of Q. C. CULLEY, near the Methodist Church, took fire on Saturday morning before day, from near the fernace, and being of wood, highly combustible, was soon reduced to ashes, together with the Cheese Box, Shingle and other machinery. The establishment has been recently fitted up with a new and superior engine from the works of R. Tow-Ea & Son, which though not distroyed, is so bading. It was an acquisition to the place, and its suspension will prove a serious loss to the community, besides the discouragement and embarrassment the culamity must bring upon a worthy mechanic and enterprising citizen. 'The loss is a total one, as the nature of the risk prevented insurance.

Mr. C. estimates his loss at \$2000.

A portion of the building was occupied by Jonn Savage, as a shaft manufactory, which was also a total loss, in machinery and stock of some \$500.

We trust that our citizens will sympathize with their fellow citizens in misfortune, and give them some substantial evidence of that sympathy in liberal contributions to put them again into operation.

Holloway's Cintment and Pills. Impurities of the blood are often daveloped in disgusting emptions, alcouptions some, boils, and other external affections. For all the distressing and dangerous complaints, Holloway's distrement is heading balasm. It neutralizes the materies more, or seeds of disease in the exterior secretions, and dispels the infammation. Nature does the rest. The experience of every human being who has tested the officiency of the Ointment, is the same. It has never failed. When the internal organs are above affected, as in liver complaint, dexpeptals, and irregularities of the bowels, a few doses of the Pills afford certain and permanent relief.

Dr. Roback's discoveries. We can not shut Dr. Roback's discoveries. We can not shut our eyes to the fact that Dr. Roback's famous Medicines, the scandinavira Blood Phile and Patisher, are effecting wondering cures of Ferce and Agus, Dyspepsis, Liver complaint and fifthurnatum, in all parts of the Next. Planters and Farmers, apon whose words we currely, a sour us that such is the case, and the newspapers with which we exchange couldn't be statement. The fixed Plie and Blood Purifice, as their names import, act specifically upon the active principle of disease in the Animal Fluck. The distributive system of blood cessels and nerves, which irrigate the whole body with the element of vitality, becomes, when that element is tainted with corruptions a dissemination of the seeds of disease. It is upon this circulating poison, this deadly virus, propelled through the veins and arteries to the destruction of heatth and life, that Dr. Roback's preparations set. They change the chemical character of the blood, re-vitalize it, render it pure and matriduous. Grapping with and destroying the very root of a disorder, their cures are complete and pernament. We invite attention to Dr. R. adventement.
